An Ordinance regulating cross connections with the public water supply system, i.e. a connection or arrangement of piping or appurtenances through which water of questionable quality, wastes other contaminants can enter the public water supply system.

Be it ordained by the Central Lake Village Council and Central Lake Water Department, State of Michigan:

Section 2. That it shall be the duty of the Central Lake Water Department to cause inspections to be made of all properties served by the public water supply where cross connection with the public water supply is deemed possible. The frequency of inspections and re-inspections base on potential health hazard involved shall be as established by the Central Lake Water Department and as approved by the Michigan Department of Environmental Quality.

Section 3. That the representative of the Central Lake Water Department shall have the right to enter at any reasonable time, any property served by a connection to the public water supply system of the Village of Central Lake for the purpose of inspecting the piping system of systems thereof for cross connections. On request, the owner, lessees or occupants of any property so served shall furnish to the inspection agency any pertinent information regarding the piping system or systems on such property. The refusal of such information or refusal of access, when requested, shall be deemed evidence of the presence of cross connection.

Section 4. That the Central Lake Water Department is hereby authorized and directed to discontinue water service after reasonable notice to any property wherein any connection in violation of this ordinance exists and to take such other precautionary measures deemed necessary to eliminate any danger of contamination of the public water supply system. Water service to such property shall not be restored until the cross connection(s) has been eliminated in compliance with the provisions of the Ordinance.

Section 5. That all testable backflow prevention assemblies shall be tested at the time of installation or relocation and after any repair. **CROSS CONNECTION CONROL PROGRAM
FOR THE VILLAGE OF CENTRAL LAKE, MICHIGAN**

(1) INTRODUCTION

In accordance with the requirements set forth by the Michigan Department of Environmental Quality (MDEQ), the Village of Central Lake has officially adopted the State of Michigan Cross Connection Rules to protect the public water supply system. A cross connection is defined as a connection or arrangements of piping or appurtenances through which a backflow could occur. Backflow is defined as the undesirable reversal of flow of water of questionable quality, waste or other contaminants into a public water supply. The purpose of this program is to avoid contamination of the public water supply by preventing and eliminating cross connections. It is the intend of the Village of Central Lake to carry out a comprehensive and effective cross

connection control program (CCCP) to ensure public health is protected and the requirements of the Michigan Safe Drinking Water Act are complied with.

(2) AUTHORITY

The authority to carry out and enforce the local CCCP is provided from local Ordinance No. 1 of 2012, the Michigan Safe Drinking Water Act (Act 339), the MDEQ, Water Bureau Cross Connection Rules Manual and the Michigan Plumbing Code.

(3) PROGRAM APPROACH

The objectives of this Program will be met primarily by:

- Routinely inspecting water customers for cross connections or potential cross connections
- Requiring water customers to test backflow prevention assemblies
- Maintaining cross connection control records
- Actively enforcing violations of the Program
- Providing public education
- Reporting the status of the Program to MDEQ

The Village of Central Lake shall ensure that there are adequate personnel and resources to carry out the necessary field and administrative requirements for this Program. The Village of Central Lake adopts the MDEQ, Water Bureau Cross Connection Rules Manual as a guide to prevent and eliminate cross connection.

(4) INSPECTIONS

The water connections and plumbing system of all water customers or accounts shall be initially inspected for the presence of cross connections. As a result of the initial inspections, a detailed record of each account shall be established. A representative of the water utility or their designated agent shall be responsible for inspections. Individual responsible for conducting inspections shall have obtained sufficient training on cross connection rules, identification and corrective actions.

Inspections shall consist of entering a facility from the point where water service enters the facility (usually the meter) and tracing the piping to each end point of use. Using the inspection forms, the inspector shall identify and note the location and nature of any direct and potential cross connections, location and details of backflow prevention devices and other pertinent information. Inspectors having proper identification shall be permitted to enter the building/premises at reasonable times for the purpose of cross connection inspections. If the inspector is refused proper access or if customer plumbing is untraceable, the Village of Central Lake will access a cross connection is present and take the necessary action to ensure the public water supply is protected.

The highest priority for inspections shall be placed on facilities that pose a high degree of hazard, that have a high probability that backflow will occur or are known/suspected to have cross connections.

Once initial inspections of all accounts are completed, then a re-inspection frequency shall be determined for each account based on the degree of hazard and potential for backflow. The MDEQ Cross Connection Rules Manual will be a guide in classifying the degree of hazard of each account. However, in general, situations in which backflow could cause illness or death shall be considered a high hazard. Accounts that pose a high hazard or have a high potential for backflow to occur must be re-inspected at least once per year. All other accounts must be re-inspected once every one (1) to three (3) years based on the degree of risk. Other factors such as new construction, water quality complaints or anomalies in customer billing prompt an immediate re-inspection. After initial cross connection inspections are complete, a comprehensive list or inventory of all backflow prevention devices shall be on record including all pertinent data.

Following an inspection, the Village of Central Lake shall inform the customer of their compliance status with the cross connection rules. Template notices in Appendix D may be used to inform customers of upcoming inspections, required corrective actions, compliance status, etc.

(5) TESTING BACKFLOW PREVENTION ASSEMBLIES

When all initial inspections have been completed, a comprehensive list of backflow preventers installed on customers plumbing systems will be on record. The backflow preventers that are testable assemblies shall be placed on a routine testing schedule. Based on the associated degree of hazard and provability of backflow, each assembly will be assigned a testing frequency. Assemblies in place on high hazard connections must be tested annually. All other accounts must be tested once every three (3) years. In addition, all assemblies must be tested immediately following installation and repair.

Upon notice from the Village of Central Lake, it shall be the responsibility of the water customer to arrange for the assembly to be tested and submit the completed test form.

Following the initial cross connection inspections and subsequent classification of accounts (e.g. assigning a degree of hazard), assembly testing notices shall be sent to customers each year. The notices shall be sent out in a timely manner in order to provide adequate time for customers to comply and the timing will consider seasonal assemblies. Template notices in Appendix D may be used to inform customers of testing requirements. These notices will:

- Clearly identify the assembly requiring testing (size, make, model, location, etc.)
- Stipulate the date by which the assembly must be tested
- Indicate that test must be completed by a certified tester. A list of approved testers may be provided and updated lists may be obtained for the DEQ
- Enclose a standard test form (see Appendix D)

When assembly testing reports are received by the utility, they will be checked for the following:

- All the necessary information was provided
- Name and certification number of the testing is provided
- The test results appear valid
- The assembly tested matches the assembly requiring testing (make, model, etc.)

- The assembly is ASSE certified

Cross connection program staff will follow up with owners or tester on questionable tests forms. A customer may be asked to have an assembly retested if the original test results do not appear valid. Test forms must be received and kept on record for each required test.

(6) RECORD KEEPING

A system of cross connection record keeping shall be maintained. Special software specifically for cross connections may be used for:

- Efficient record searches
- Easy reporting
- Simply updating
- Automatic letter generation
- Automatic deadline notification

All cross connections accounts information must be in the records including:

- Address and location
- Owners name and contact information
- List of testable assemblies
- Description of other cross connection within the facility
 - Air gaps
 - Non-testable assemblies
- Degree of hazard classification and basis
- Required re-inspection frequency
- Photos or sketches, if available

All testable assemblies must be in the record including:

- Location of the assembly
- Name and contact information of assembly owner
- Make, model and size of assembly
- ASSE standard number
- Degree of hazard classification
- Required testing frequency and basis
- Seasonal or permanent status

Tracking changes in water use or tracking new customers is a critical part of the cross connection program. The Village of Central Lake shall make every attempt to prevent/eliminate cross connection at installation to ensure future compliance. An effort shall be made to cooperate and communicate with the local plumbing code inspector to better accomplish this goal.

Standard letter, form and reporting templates may be used to simplify the program requirements including:

- Inspection forms
- Assembly testing forms
- Inspection and/or assembly testing notification letters
- Non-compliance letters
- Water service termination notice
- Hydrant use authorization forms

Copies of the written Cross Connection Control Program. Ordinance and DEQ approval letter should be kept on file. Copies of the MDEQ Annual Reports shall be kept for a minimum of ten (10) years.

(7) ENFORCEMENT

To protect public health, water customers found to be in violation of the cross connection rules will be brought into compliance in a timely manner or lose their privilege to be connected to the public water system. To properly enforce these rules, the Village of Central Lake Ordinance provides authority to inspect facilities, terminate water service and assess fines.

Following an inspection, the customer will be sent either a compliance notice or a non-compliance notice. The timeframe to complete the necessary corrective actions is at the discretion of the utility and will be based primarily on the degree of risk posed by the violation, but also consider the complexity/cost of the necessary corrective action. Cross connections that pose an imminent and extreme hazard shall be disconnected immediately and so maintained until proper protection is in place. Cross connections that do not pose an extreme hazard are generally expected to be eliminated with thirty (30) to sixty (60) days. The necessary corrective action and deadline shall be described in the non-compliance notice to the customer.

If water shut off is necessary to protect the public water system, the local health department, fire department, local law enforcement and the Village President may need to be notified.

(8) PUBLIC EDUCATION

The Cross Connection Control Program Staff must have a good understanding of the Program. The Village of Central Lake shall ensure their cross connection control staff receives proper in-the-field training as well as classroom education focusing on terminology, backflow prevention devices, regulations and hydrant concepts. In addition, cross connection control staff will be encouraged to receive continuing education to be made aware of new backflow prevention devices, regulation changes (i.e. plumbing code updates), new water use devices that pose cross connection concerns, etc.

Furthermore, attempts to educate the public about cross connections will be made by distributing pamphlets on common residential cross connection, visiting schools, providing onsite education of facility management and maintenance staff during routine inspections,

speaking at condominium association meetings, showing videos on local access channels or posing newspaper announcements. Cross connection staff shall also be available upon request to provide backflow prevention education to pertinent community officials and Village and/or Township employees.

(9) ANNUAL REPORT

Part 14 of the Michigan Safe Drinking Water Act requires that each community report the status of their Program to the MDEQ annually. The report summarizes testing, inspections and corrective action efforts. Cross connection records shall be on file to document each number on the report. The annual report form shall be filled out completely and submitted by the deadline. A narrative description shall be included explaining any unusual number or significant events such as:

- The addition or loss of a cross connection staff person
- Greatly expanded/contracted number of cross connection accounts
- Status of accounts not currently in compliance

- 2.3** An ordinance regulating the use of public and private sewers and drains, private sewage disposal, the installation and connection of building sewers and the discharge of waters and wastes into the Village of Central Lake sewage system and providing penalties for violations thereof in the Village of Central Lake, County of Antrim, State of Michigan.

If the property transferred does not independently conform to the requirements of the Land Division Act, being Act 288 of the Public Acts of 1967 as amended, the Village of Central Lake Zoning Ordinances, as amended, and this chapter then it shall not be considered a development site but may only be used in conjunction with the lot or parcel to which it was transferred.

5.3 Approval of Land Divisions or Property Transfers Required; Establishment of Exempt Splits:

- (a) The owner of a lot, parcel or tract of land shall not divide or effect a property transfer involving or cause any person to divide or effect a property transfer involving that lot, parcel or tract of land except as provided in this chapter unless the division or property transfer is approved as part of a subdivision plat at the time of plat approval under the Land Division Act of 1967, being Act 288 of the Public Acts of 1967, as amended, the division or property transfer is part of a condominium project developed under the Condominium Act, being Act 59 of the Public Acts of 1978, as amended, or the division or property transfer is done pursuant to an order of a court of competent jurisdiction.
- (b) The owner of a lot, parcel or tract of land claiming an exempt split as defined in Section 2(f) of this chapter shall submit to the Village Code Enforcement Officer either a survey map of the land claimed to be an exempt split prepared pursuant to the survey map requirements of Act 132 of the Public Acts of 1970, as amended, certified by a land surveyor licensed by the State of Michigan or other clear evidence documenting that the proposed exempt split of a parcel or tract of land will not result in one (1) or more parcels of less than forty (40) acres or the equivalent. In addition, the owner of a lot, parcel or tract of land claiming an exempt split shall submit to the Village Code Enforcement Officer documentation that each new lot, parcel or tract of land resulting from the proposed exempt split has or can have a driveway or easement that provides vehicular access to an existing road or street. If the Village Code Enforcement Officer finds that the proposed division is an exempt split and that each new lot, parcel or tract of land that will result from the division is accessible, then no further action under this chapter shall be required. If the Village Code Enforcement Officer finds that the proposed division is either not an exempt split or that each new lot, parcel or tract of

land that will result from the division is not accessible, then he or she shall give the owner written reasons for his or her decision. In that event the owner shall be required to proceed under Section 4 of this chapter to obtain approval of the proposed division. If the owner disagrees with the Village Code Enforcement Officer's decision, the owner can submit revised information to the Village Code Enforcement Officer or appeal the Village Code Enforcement Officer's decision to the Village Council pursuant to Section 7 of this chapter.

- (c) In addition, an exempt split or other partitioning or splitting of a parcel or tract of land that only results in parcels of twenty (20) acres or more in size is not subject to approval under this chapter if the parcel or tract of land being partitioned or split is not accessible and was in existence on March 31, 1997 or resulted from an exempt split or a partitioning or splitting under Section 10+b of the Land Division Act as amended.

5.4 Procedure for Division or Property Transfer:

The following procedure shall be followed to divide a lot, parcel or tract of land or to affect a property transfer:

- (a) Because of the many requirements that must be met to obtain approval to divide a lot, parcel or tract of land or to effect a property transfer, an applicant may request an informal meeting with the Village Code Enforcement Officer to discuss the application procedures prior to submitting a formal application under Section 4(b) of this chapter. At this informal meeting, the applicant and the Village Code Enforcement Officer shall review the proposed division or property transfer, discuss the information that must be submitted with the application and review the standards the Village Council will use to render its decision on the application.
- (b) When formal approval of a division or property transfer is desired, the applicant shall submit an application for that approval to the Village Code Enforcement Officer on a form supplied by the Village for that purpose. The application shall include, but not be limited to the following:
 - (1) Proof of ownership of the lot, parcel or tract of land to be divided or of the lots or parcel involved in a property transfer.
 - (2) The names and addresses of all persons having an interest in the lot, parcel or tract of land to be divided or of the lots or parcels involved in a property transfer and a statement of the type of interest each holds.
 - (3) A brief statement as to the purpose of the proposed division or property transfer and whether the lots, parcels or tracts of land that will result from the division or property transfer will be used for residential (single family, multi-family, etc.), commercial or manufacturing purposes.
 - (4) The history of the prior divisions of the parent parcel from which the applicant's parcel or tract of land came and proof that the applicant holds the right to divide the parcel or tract of land proposed for division.

- (5) A survey map of the land proposed to be divided or the land involved in the property transfer prepared pursuant to the survey map requirements of Act 132 of the Public Acts of 1970, as amended, certified by a land surveyor licensed by the State of Michigan and depicting the dimensions of the lot, parcel or tract of land to be divided or the lots or parcels involved in a property transfer, the dimensions of the lots, parcels or tracts of land that will result from the division or property transfer, the location of all current easements on the lot, parcel or tract of land to be divided or on the lots or parcels involved in a property transfer and the location of all proposed easements on the lots, parcels or tract of land that will result from the division or property transfer. The easements required by this subsection shall include both utility easements and ingress/egress easements. The survey shall also depict all building and structures on the lot, parcel or tract of land to be divided or on the lots or parcels involved in a property transfer and the distances between these buildings and structures and the original property lines of the lot, parcel or tract of land to be divided or the lots or parcels involved in a property transfer and shall depict the distances between these buildings and structures and the property lines of the lots, parcels or tracts of land that will result from the division or property transfer.
- (6) A map showing the location of the lot, parcel or tract of land to be divided or the lots or parcels involved in a property transfer within the Village.
- (7) Legal description, certified by a land surveyor licensed by the State of Michigan of the lots, parcels or tracts of land that will result from the division or property transfer.
- (8) A duly executed instrument of conveyance (deed, land contract, lease, etc.) suitable in form for recording at the Antrim County Register of Deeds Office which the applicant intends to use to document these lots, parcels or tracts of land that will result from the division or property transfer. If the grantor intends to convey the rights to future divisions of the parcel being conveyed, the deed or land contract shall contain the following statement as required by the Land Division Act, as amended: "The grantor grants to the grantee the right to make (insert number) division(s) under Section 108 of the Land Division Act, Act. No. 288 of the Public Acts of 1967." Finally, all deeds and land contracts of unplatted land shall contain the following statement as required by the Land Division Act, as amended: "This property may be located within the vicinity of farmland or a farm operation. Generally accepted agricultural and management practices which may generate noise, dust, odors and other associated conditions may be used and are protected by the Michigan Right to Farm Act."
- (9) If the lot, parcel or tract of land that will result from the division or property transfer will be a development site, then the applicant shall submit documentation that each such resulting lot, parcel or tract of land has or can have a driveway or easement that provides vehicular access to an existing road or street. In addition, the applicant shall submit evidence establishing adequate

easements for public utilities from each such resulting lot, parcel or tract of land to existing public utility facilities.

10. Such other documentation that the Village Code Enforcement Officer may require relating to the application.
- (c) The application shall be accompanied by an application fee as established and set forth in a Village fee schedule. This fee schedule shall also establish “after the fact” fees that must be paid when an otherwise lawful division or property transfer occurs but without first complying with the procedural requirements of this chapter. This “after the fact” fee is not intended to be a penalty, but shall consist of the normal application fee plus an amount equal to the legal and administrative costs incurred by the Village as a result of the applicant’s failure to initially comply with the requirements of this chapter.
 - (d) After receiving the application and the information required in subsection 4(b) above, the Village Code Enforcement Officer shall make a decision on the application. The Village Code Enforcement Officer shall decide whether to approve a proposed division or property transfer within forty-five (45) days after all the information required in subsection 4(b) above is given to the Village Code Enforcement Officer. If the applicant fails to provide all the information required in subsection 4(b) above, then the application shall be deemed incomplete and may be denied on that basis. The Village Code Enforcement Officer’s decision to approve the division or property transfer shall be made pursuant to the standards contained in Section 5 of this chapter. If the Village Code Enforcement Officer fails to grant approval of a proposed division or property transfer, written reasons for its decision shall be given to the applicant. The applicant shall then have the option of resubmitting information for approval to the Village Code Enforcement Officer or appealing the decision to the Village Council.
 - (e) If the Village Council approves a proposed division or property transfer, then the Village Code Enforcement Officer shall send a letter indicating such approval to the applicant with copies to the President of the Village of Central Lake, the Village of Central Lake Assessor, the Village of Central Lake Village Council and the Antrim County Register of Deeds. This letter shall contain the following statement: “The Village of Central Lake, its officers and employees are not liable if a building permit is not issued pursuant to Section 109a of the Land Division Act, as amended, for a parcel less than one (1) acre in size that resulted from an approved division under the Village of Central Lake Division Chapter.” The copy of this letter shall be retained by the Village Council in its official records.
 - (f) Because zoning requirements may change over time, any approval for an application for a division or property transfer by the Village Council under Section 4(d) above shall expire and a new approval required after ninety (90) days from the date of the approval unless the applicant records in the Antrim County Register of Deeds Office an instrument(s) of conveyance documenting the division or property transfer and files a copy of that recorded instrument(s) with the Village Code Enforcement Officer.

5.5 Standards for Approval of Divisions or Property Transfers:

An application to divide a lot, parcel or tract of land or to affect a property transfer shall be granted when all of the following standards are met:

- (a) The proposed division or property transfer shall comply with all requirements of the Land Division Act of 1967, being Act 288 of the Public Act of 1967, as amended.
- (b) Each lot, parcel or tract of land that will result from the division or property transfer shall have an adequate and accurate legal description certified by a land surveyor licensed by the State of Michigan shall be serviced by a public utility easement and shall be accessible.
- (c) Each new lot, parcel or tract of land that will result from the division, including those lots, parcels and tracts of land greater than ten (10) acres shall have a depth of not more than four (4) items its width as measured under the requirements of the Village of Central Lake Zoning Ordinance. This standard shall not apply to a property transfer.
- (d) If a lot, parcel or tract of land that will result from the division or property transfer will be a development site, then each resulting lot, parcel or tract of land shall have adequate easements for public utilities from each such resulting lot, parcel or tract of land to existing public utility facilities.
- (e) If the land proposed to be transferred between two (2) or more adjacent lots or parcels does not independently conform to the requirements of the Land Division Act, being Public Act 288 of the Public Acts of 1967, as amended, and this chapter, then the land proposed to be transferred shall not thereafter be independently considered a development site, but may only be used in conjunction with an adjoining lot(s), parcel(s) or tract(s) of land.
- (f) Each lot, parcel or tract of land that will result from the division or property transfer shall be accessible.
- (g) The owner of the parcel or tract of land shall possess the right to divide the parcel or tract of land. This standard shall not apply to a property transfer.
- (h) The property lines of the lots, parcels or tracts of land that will result from the division or property transfer shall be consistent and in harmony with the property lines of the lot, parcel or tract of land to be divided or the lots or parcels involved in a property transfer and/or the property lines of adjacent lots, parcels or tracts of land.

5.6 Land Configuration Variances

- (a) If a lot, parcel or tract of land that will result from a division does not meet the depth to width requirements of Section 5(c) of this chapter, then the applicant may seek a variance from those requirements from the Village Council pursuant to the procedures of this section.

- (b) The Village Council may grant a variance under this chapter from the depth to width requirement of Section 5(c) of this chapter if all of the following exist:
- (1) Exceptional or extraordinary circumstances or conditions exist on the parent parcel including exceptional topographic or physical conditions that do not generally apply to other lots, parcels or tracts of land in the Village.
 - (2) The exceptional or extraordinary circumstances or conditions existing on the parent parcel are not the result of any act or omission by the Applicant or his or her predecessors in title.
 - (3) The granting of the variance shall not be injurious or otherwise detrimental to adjoining lots, parcel or tracts of land or to the general health, safety and welfare of the Village.
 - (4) The resulting lots, parcels or tracts of land with the variance granted shall be compatible with surrounding lots, parcels or tracts of land.
 - (5) The variance granted shall be the minimum variance that will make possible the reasonable use of the parent parcel.
- (c) In granting any variance under this chapter, the Village Council may prescribe appropriate conditions and safeguards in order to ensure that the lot, parcel or tract of land that will result from the division or property transfer complies with the variance granted under this chapter. Violations of such conditions and safeguards shall be deemed a violation of this chapter punishable under Section 8 of this chapter.

5.7 Appeals to the Village Council:

Any person aggrieved by a decision of the Village Code Enforcement Officer may appeal that decision to the Village Council. Any such appeal shall be filed within thirty (30) days from the date of the decision from which the appeal is taken. During the appeal, the Village Council shall conduct a *de novo* hearing of the matter and to that end shall have all the powers of the Village Code Enforcement Officer. In rendering its decision, the Village Council shall receive and consider evidence and data relevant to the case and shall issue its decision in writing within thirty (30) days after receiving all evidence and data in the case. The decision of the Village Council shall then be sent promptly to the applicant, to the person who filed the appeal (if different from the applicant) and to the Village Code Enforcement Officer.

5.8 Violations and Penalties:

Any person who shall violate any provision of this chapter shall be responsible for a municipal civil infraction as defined in Public Act 12 of 1994, amending Public Act 236 of 1961, being Sections 600.101-600.9939 of Michigan Compiled Laws and shall be subject to a fine of not more than Five Hundred Dollars (\$500.00). Each day this chapter is violated shall be considered as a separate violation. Any action taken under this section shall not prevent civil proceedings for abatement or termination of the prohibited activity.

5.9 Enforcement Officer:

The Village Code Enforcement Officer is hereby designated as the authorized Village Official to issue municipal civil infraction citations directing alleged violators of this chapter to appear in court.

5.10 Nuisance Per Se:

A violation of this chapter is hereby declared to be a nuisance per se and is declared to be offensive to the public health, safety and welfare.

5.11 Separate Court Action:

In addition to enforcing this chapter through the use of a municipal civil infraction proceeding, the Village may initiate proceedings in the Circuit Court to abate or eliminate the nuisance per se or any other violation of this chapter.

5.12 Validity:

If any section, provision or clause of this chapter or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect any remaining portions or application of this chapter which can be given effect without the invalid portion or application.

CHAPTER 6 LIQUOR LICENSE

6.1 Definitions:

- (a) "License" means a liquor license issued by the Michigan Liquor Control Commission and for which the Village approval is required. It does not apply to off premise licenses for which Village input is requested and for which Village approval is not required.
- (b) "Person" means an individual, corporation, partnership, Limited Liability Company, limited liability partnership or any other business entity.

6.2 Legislative Intent:

The Village Council acknowledges the difference which the law recognizes between applications for new licenses and the transfer, renewal or revocation of existing licenses. As to new licenses, this chapter is designated to provide a framework in which the Village Council can decide whether to approve or deny an application for a new license. This framework when followed will show a reviewing court that the Village's discretion was not exercised arbitrarily or capriciously. The Village Council recognizes that the issuance or denial of a license can be controversial and that litigation over the Village Council's decision can easily result.

The regulation of licenses and their impact on the land use goals of the Village are legislative decisions. The voters and legislative process are the methods which should be used to alter legislative decisions as long as the legislative decisions are not made in an arbitrary and capricious manner. It is hoped that a reviewing court will respect the function of the Village Council as well as the electoral process in evaluating the actions of the Village Council. The Village acknowledges that existing licensees have property rights in those licenses. Thus, for the transfer of existing licenses the Village has adopted with modification certain requirements recommended by the Michigan Municipal League. For the renewal or revocation of existing licenses, the Village has adopted a system in this chapter to meet procedural due process requirements.

6.3 Application for License – New and Transfer:

- (a) Application

Application for a new license or to transfer an existing license shall be made to the Village Council in writing signed by the applicant, if an individual, or by a duly authorized agent thereof if a partnership or corporation, verified by oath or affidavit, and shall contain the following statements and information:

- (1) The name, age and address of the applicant in the case of an individual or in the case of a co-partnership, the persons entitled to share in the profits thereof; in the case of a corporation, the objects for which organized, the names and addresses of the officers and directors and, if a majority interest in the stock of such corporation is owned by one person or his/her nominee, the name and address of such person.

- (2) The citizenship of the applicant, his/her place of birth and, if a naturalized citizen, the time and place of his naturalization.
- (3) The character of the business of the applicant including a description of what services will be provided to patrons and how intoxicating liquor will be offered in conjunction with those services. In the case of a corporation, a copy of the Articles of Incorporation shall also be provided.
- (4) The length of time the applicant has been in business of that character or in the case of a corporation, the date when its articles were approved by the state.
- (5) The location and description of the premises or place of business which is to be operated under such license.
- (6) A statement whether the application has made an application for a similar or other license on premises other than described in this application and the disposition of that application.

- (8) A statement that the application will not violate any of the laws of the State of Michigan or of the United States or any ordinances of the Village in conduct of its business.
- (9) The application shall be accompanied by building and site plans showing the entire structure and premises and, in particular, the specific areas where the license is to be utilized. The plans shall demonstrate adequate off street parking, lighting, refuse disposal facilities and, where appropriate, adequate plans for screening and noise control.
- (10) A copy of all financial information and documents provided to the Michigan Liquor Control Commission investigator regarding financial responsibility.

(b) Approval Standard for New License

In determining whether a new license should be issued, the Village Council shall consider the following factors:

- (1) Whether the applicant or, if a partnership or corporation, any member of the partnership or corporation, has been denied a license in the past seven (7) years and the reason for the denial.
- (2) Whether the application is complete and contains all of the information required by this chapter.

- (3) Whether the application shows adequate off street parking, lighting, refuse disposal facilities, landscaping/screening and noise control.
- (4) The impact of the proposed license and associated business on the occupants and owners of adjoining properties.
- (5) Whether the proposed license and associated business will adversely affect traffic safety.
- (6) Accessibility to the site from abutting roads.
- (7) The distance from public or private schools for minors.
- (8) Proximity of an inconsistent zoning classification.
- (9) Whether the license is likely to expand or intensify a business activity in a zoning district other than the local business district and highway business district. In determining whether the license is likely to expand or intensify a business activity, the Village Council shall consider such factors as whether the number of patrons will increase, whether there will be increased traffic to and from the applicant's business, whether new buildings or the expansion of existing buildings are likely and whether secondary growth is likely to result.

(c) Requirements for License – New and Transfer

Regardless of the Village Council's evaluation of the approval standards, no license shall be issued to:

- (1) A person whose license, under this chapter, has been revoked for cause
- (2) A person who at the time of the application or renewal of any license issued hereunder would not be eligible for such license upon a first application

 - (7) A person whose licensing activity will expand or intensify a non-conforming use under the Village Zoning Ordinance.
- (d) Terms of License: Approval of a license shall continue for as long as the Michigan Liquor Control Commission License continues subject to periodic review by the Village Council regarding continued compliance with the regulations of this chapter and any conditions of approval. Approval of a license shall be on the condition that any necessary remodeling or new construction for the use of the license shall be commenced within six (6) months of the action of the Village Council or the Michigan Liquor Control Commission approving such license, whichever last occurs. Any delay in the completion of such remodeling or construction may subject the license to revocation.
- (e) Reservation of Authority: No applicant for a license has the right to the issuance of such license to him, her or it and the Village Council reserves the right to exercise reasonable discretion to determine whom, if anyone shall be entitled to the issuance of such license. If an application is incomplete, the license may be denied without a consideration of the merits of the application.
- (f) License Hearing: The Village Council may act on an application for a new license or the transfer of an existing license at any regular or special meeting. The Village Council may hold a public hearing on any application when it is determined to be in the public interest. Following action on an application, the Village Council shall submit to the applicant a written statement of its findings and determination.

6.4 Objections to Renewal and Request for Revocation:

- (a) Procedure: Before filing an objection to the renewal or a request for the revocation of a license with the Michigan Liquor Control Commission, the Village Council shall serve a notice of hearing on the license holder. This notice of hearing shall be served by first class mail not less than ten (10) days prior to the hearing. The notice of hearing shall contain the following:

 - (2) Maintenance of a nuisance upon the premises.

6.5 Severability:

Should any section or part of this chapter be declared unconstitutional, null or void by a court of competent jurisdiction, such declaration shall not have any effect on the validity of the remaining section or parts thereof of this chapter.

- (b). A part of the building or structure is likely to fall, become detached or dislodged, or collapse and injure persons or damaged property.
- (c). A portion of the building or structure has settled to such an extent that walls or other structural portions of the building or structure have materially less resistance to wind than is required in the case of new construction by the building code enforced within the Village.

- (e). The building, structure, or a part of the building or structure is manifestly unsafe for the purpose for which it is used.
- (f). The building or structure is damaged by fire, wind, or flood, or is dilapidated or deteriorated and has become an attractive nuisance to children who might play in the building or structure to their danger.

Central Lake Downtown Development Plan

This Development Plan contains the information required by Section 17(2) Public Act 197 of 1975, as amended. Additional information is available from the Village Clerk. Public Act 197 of 1975 seeks to address problems of urban decline, strengthen existing areas and encourage new private developments in the downtown districts of our communities. It seeks to accomplish this goal by providing communities with the necessary legal, monetary, and organization tools to revitalize downtown districts either through public initiated project undertakings or in concert with privately motivated development projects.

Designated Boundaries and Map

The Central Lake Downtown Development Authority (DDA) encompasses approximately 5 acres of land and includes residential, commercial, and mixed-use properties. The designated and legal boundaries of the Central Business District are:

All properties inclusive with the western boundary being Chestnut Street from Brooks Street north to Cedar Street; the northern boundary from Chestnut Street to Cherry Street on Cedar Street; south on Cherry Street to North Street then east on North Street to Elm Street; then south on Elm Street to Maple Street; west on Maple Street to the northeast corner of Lot 4, Block V, Plat of Central Lake 1884; then south to State Street; west on State Street to Herrick Street; south on Herrick Street to the southeast corner of Lot 1, Block T, Plat of Central Lake; then west on southern border of said Lot 1, Block T to northeastern corner of Lot 9, Block T, Plat of Central Lake; then south to Brooks Street; then west to Chestnut Street

Existing Improvements to be Demolished, Repaired or Altered; Description of Repairs and Alterations, and Estimated Time of Completion

The DDA will consider an improvement plan that may replace some areas of the downtown with facilities and improvements to better promote and enhance the use of space within the DDA District.

Location, Extent, Character, Estimated Cost of Improvements, Construction Stages, and Estimated Completion Time

The DDA, as requested by Village Council will work with the community to improve it's downtown. This will be an open, community-engaged process that will have as its premise a focus on the needs of the entire Central Lake community. The DDA's Design Committee will lead this effort, which is anticipated to begin in the first quarter of 2015. Cost and completion schedules to be determined by the community.

Portion of the Development Area that the Authority Desires to Sell, Donate, Exchange, or Lease to or from the City

None.

Proposed Zoning Changes and Changes to Streets, Intersections, Utilities, etc.

None.

Estimates of the number of persons residing in the development area and the number of families and individuals to be displaced.

Approximately 50 persons live in the development area. The DDA has no plans to displace any persons as a result of the development plan.

Estimated Costs of the Proposed developments and How the DDA Proposes to Finance Them

The DDA plans the following projects:

1. Adopt the Four-Point Main Street organization and training model from The Michigan Main Street Center.

The DDA adopted the Main Street Model in January 2014, which provides structure and training to enhance the viability of downtowns in the areas of promotion, organization, design, and economic restructuring.

Organization - Establishes consensus and cooperation by building partnerships among the various groups that have a stake in the DDA district.

Promotion - The goal is to create a positive image that will enhance community pride and improve consumer and investor confidence in the commercial district.

Design - Getting the central business district into top physical shape and creating a safe, inviting environment for shoppers, workers, and visitors. It takes advantage of the visual opportunities inherent in a commercial district by directing attention to all of its physical elements: public and private buildings, storefronts, signs, public spaces, parking areas, street furniture, public art, landscaping, merchandising, window displays, and promotional materials.

Economic Restructuring - Strengthens the community's existing economic assets while diversifying its economic base. This is accomplished by retaining and expanding successful businesses to provide a balanced commercial mix, sharpening the competitiveness and merchandising skills of business owners, and attracting new businesses that the market can support.

TIF PLAN

Tax Increment Financing Procedure

The Tax Increment Financing procedure outlined in the Act requires the passage of an ordinance by the Village of Central Lake to adopt or amend a Downtown Development Plan and Tax Increment Financing Plan. Following adoption of the ordinance approving the Development and Tax Increment Financing Plan, the Township and County Treasurers are required by law to transmit to the DDA that portion of the tax levy of all taxing jurisdictions paid each year on the captured assessed value of all real and personal property included in the Tax Increment Financing Plan. The Tax Increment Financing Plan may be modified if the Village of Central Lake follows the same modification and public hearing procedures as were required to adopt the original Plan.

At the time this Tax Increment Financing Plan is adopted, the “initial assessed value” is determined. The initial assessed value means the assessed value, as equalized, of all the taxable property within the boundaries of the Development Area at the time the ordinance establishing the Tax Increment Financing Plan is approved, as shown by the most recent assessment roll for which equalization has been completed at the time the ordinance is adopted. Property exempt from taxation at the time of the determination of the initial assessed value shall be included at zero. Property for which a specific local tax is paid in lieu of property tax shall not be considered exempt from taxation. The initial assessed value of property for which a specific local tax was paid in lieu of property tax is determined as provided below.

The percentage of taxes levied for school operating purposes that is captured and used by the tax increment financing plan shall not be greater than the plan’s percentage capture and use of taxes levied by a municipality or county for operating purposes. For purposes of the previous sentence, taxes levied by a county for operating purposes include only millage allocated for county or charter county purposes under the property tax limitation act, Michigan Public Act 62 of 1933, being sections 211.201 to 211.217a of the Michigan Compiled Laws. Tax increment revenues used to pay bonds issued by the Township under section 16(1) of the Act shall be considered to be used by the tax increment financing plan rather than shared with the Township.

“Specific local tax” means a tax levied under Michigan Public Act 198 of 1974, being Sections 207.551 to 207.572 of the Michigan Compiled Laws, the Commercial Redevelopment Act, Michigan Public Act 255 of 1978, being Section 207.651 to 207.668 of Michigan Compiled Law, Act No. 189 of the Michigan Public Acts of 1953, being Sections 211.181 to 211.182 of the Michigan Compiled Laws, and the Technology Park Development Act, Michigan Public Act 385 of 1984, being Sections 207.701 to 207.718 of the Michigan Compiled Laws. The initial assessed value or current assessed value or current assessed value of property subject to specific local tax shall be the quotient of the specific local tax paid divided by the ad valorem millage rate. However, after 1993, the Michigan State Tax Commission shall prescribe the method of calculating the initial assessed value and current assessed value for which a specific local tax was paid in lieu of a property tax.

Estimated Captured Assessed Values, and Estimated Tax Increment Revenues

The tax increment revenues or “captured assessed value” means the amount in any one year by which the current assessed value of the project area, including the current assessed value of property for which specific local taxes are paid in lieu of property taxes, exceeds the initial assessed value. Tax Increment Revenue to be transmitted to the Authority by the City Treasurer and/or County Treasurer shall be that portion of the tax levy of all taxing bodies paid each year on the assessed value of real and personal property in the Development Area on the captured assessed value.

The DDA is not authorized to capture tax increment revenues from any ad valorem taxes or specific local taxes attributable to the levy by the State of the six-mill education tax pursuant to Michigan Public Act 331 of 1993, as amended, or taxes levied by any local or intermediate school district.

Refer to Exhibit c for estimated captured assessed values and estimated tax increment revenues based upon a 3% annual taxable value growth rate in the DDA district. Although the actual tax increment revenues available to the DDA may vary from the estimates herein provided, the estimates of tax increment revenue in the exhibit are based on the following:

- Millage rates
 - Antrim County COA 0.40
 - Antrim County MB 1.0
 - Antrim County –E911 OP 0.50
 - Antrim County County Tax 5.4
 - Ambulance Authority 0.65
 - Dist Library – CL 0.35
 - Township Tax 1.0
 - SP ASMT-Fire 2.0
 - Twp Vote – Roads 1.0
 - Village of Central Lake 12.0

- An initial taxable base of \$2,160,965.in the DDA area. In accordance with the requirements of Act 197, this is the assessed value established on December 31 of 2013 and finally equalized in December 2044.
- All voted millages will be renewed throughout the duration of the plan.
- No local, intermediate school district, or state education taxes will be captured.

Amount of bonded indebtedness to be incurred

The maximum amount of bonded indebtedness to be incurred by the DDA and/or the Village of Central Lake for all bond issues or loans, including payments of capitalized interest, principal and required reserve shall be \$1,000,000 for the proposed projects (as demonstrated in Exhibit C – Projected Revenue) outlined in the Development Plan. Actual bonded indebtedness that may be incurred will be limited by the amount of revenues anticipated to be received each year that will be available for servicing the debt load. (Exhibit C) The bonded indebtedness proceeds will be sufficient to pay the estimated costs of the development plus any associated costs of accompanying professional services. The Village of Central Lake must approve any bonds or indebtedness, which pledge the full faith and credit for the Village of Central Lake.

Duration of the Program

The Tax Increment Financing Plan will remain in effect to the end of fiscal year 2044, unless amended after hearing and notice in accordance with section 19(2) of the Act to a shorter or longer period. Further, if repayment of the Bonds or any future bonds issued by the Authority has not been completed by 2044, the Development Plan will be extended until the bonds have been retired.

Estimated Impact on Assessed Value of Taxing Jurisdictions

The tax increment financing plan generates revenue based only on the captured assessed value. Each Taxing Jurisdiction will continue to levy and receive taxes on the initial taxable value of \$2,160,965 in the DDA. That taxable value will continue to be used for taxing purposes by the Taxing Jurisdictions that are not exempted by the DDA Act. In effect, the taxable value is frozen at the base level for taxing purposes for the duration of the DDA development plan.

The Intermediate School District, the local school district, and the State of Michigan Education Tax fund will receive revenues from all increases in taxable value.

The justification of the tax increment financing procedure is based on the expectation that all or a portion of the “capture assessed value” that is created following implementation of a downtown development plan, would not have occurred without the stimulation of the public investment involved in the plan implementation. Therefore, the short term investment made by the taxing unit in foregoing part of the initial growth in tax revenues is repaid by the long-term benefit of substantially greater taxes realized from a stronger commercial base when the plan is completed. Furthermore, this plan uniquely tries to retain the same value of tax revenues throughout the plan, while encouraging revenue generation for all taxing jurisdictions.

The overall impact of the Tax Increment Financing Plan is expected to generate increased economic activity in the Village of Central Lake and Antrim County at large. This increase in activity will, in turn, generate additional amounts of tax revenue to local taxing

jurisdictions through increases in assessed valuations of real and personal property and from increases in personal income due to new employment within the Development Area, the Village of Central Lake, and other neighboring communities throughout Antrim County.

Provision for use of part or all of the captured assessed value to be used by the DDA

The DDA shall expend the tax increments received from the development plan only in accordance with the Tax Increment Financing Plan. Tax Increment revenues in excess of the estimated tax increment revenues or in excess of the actual cost of the Plan to be paid by the tax increment revenues may be retained by the DDA only for purposes that, by the resolution of the DDA Board, are determined to further the development plan in accordance with the Tax Increment Financing Plan. The excess revenue not so used shall revert proportionately to the respective taxing jurisdictions upon the execution of a resolution directing said action. The resolution should only be adopted if the DDA Board determines that all of the projects listed in the TIF Plan are completed and it has no intention to begin the process to amend its plan to add additional projects. These revenues shall not be used to circumvent existing property tax laws that provide a maximum authorized rate for the levy of property taxes.

Compliance with Section 15 of the Act

As referred to above, it is the intent of these plans to comply with Section 15 of the Act regarding tax increments, amount of tax increments, expenditure of tax increments, and submission of the tax increment financing report. These revenues shall not be used to circumvent existing property tax limitations.

Reports

The authority shall file the following with the State Tax Commission within ninety (90) days of the end of the fiscal year of the authority

- 1) Form 2604 (if one school district) Form 2967 (if more than one), as amended, if required
- 2) Annual report (AR) as required by State Tax Commission Bulletin 9 of 1997, as amended (see appendix 3 of form 2604/2967 instructions). The Village annual audit will not fulfill this requirement.  - c) The source of tax increment revenue, subdivided by each millage levied.

Section 3. Effective Date.

This Ordinance shall become effective twenty (20) days after its enactment.
